Fluoroseal®

LINED PLUG VALVES

FLUOROSEAL is proud to introduce it's new series of lined plug valves. This revolutionary design, while emphasizing on the proven track record of the FLUOROSEAL Sleeved line, introduces new features & benefits that are setting new industry standards. The lined series was conceived with the customer in mind, every feature is designed to solve current day to day problems.

FIGURE 1B

FIGURE 2B

New "EZ Seal"® Concept

This Single Point Frontal Adjustment system (Patent Pending) eliminates the Guess work out of stem seal and plug adjustment, easy access and 360deg simultaneous and even compression eliminates side loading. Adjustment range is also clearly indicated for better maintenance planning.

FIGURE 2A

PFA or MEP Liners

Standard material offering are in either Molecularly Enhanced PTFE (MEP) or in PFA 350 both Fluoropolymers are virgin and unpigmented. Other polymers are also available to better suit your applications.

FIGURE 5

Superior Liner

Anchoring

Cast in 4 longitudinal Dove Tails along the flow path for full anchoring throughout the valve. Resulting in a superior resistance to delamination and blowouts.

Investment Casting & Nickel Plating

Standard Investment cast Carbon Steel Nickel Plated body for better tolerances and sealing and superior resistance to permeation and environmental corrosion.

FIGURE 4

All-In-One Bracket

Standard built in 304ss bracket, providing multiple ISO mounting patterns, direct mount capability, position indicator, locking device and travel stop.
